### **DETAILED ACTION**

1. This action is responsive to communications: Amendment, filed on 7/19/2007.

This action is final.

2. Claims 1-35 are pending in this application. Claim 1 is independent claims. In the Amendment, filed on 7/19/2007, claim 1 was amended.

3. The present title of the invention is "Visual and scene graph interfaces" as filed originally.

### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1-35 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

As per claim 1, the added limitation "in a graphics markup language that is in a format which enables the function call to be placed directly without being translated into a different format wherein the function call is received" is not contained in the specification.

***Response to Arguments***

6. Applicant's arguments filed 7/19/2007 have been fully considered but they are not persuasive.

Applicant amended the claim to define a function call having a specific property, however, Examiner does not see the correspondence between the limitation and the sighted specification (pages 17-21 and Figure 2).

***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
